

# THE NORTHSIDE CHRONICLE

[www.thenorthsidechronicle.com](http://www.thenorthsidechronicle.com)

Your Community Newspaper

Special edition in our May issue will feature informative articles, tips, columns and photos for neighbors' overall quality of life. This special edition will cater to those looking to find health services, wellness products, exercise studios, and ongoing health classes or groups to join.

Northside showcases a long history of groups who have a primary focus on health and wellness with many large institutions and small independent practices, studios, plus retailers who serve the community to be the healthiest they can be.

The Health + Wellness Guide is just one more way that the Chronicle engages with the community. Similar to this organizational relationship is the reputation that your group has established in and around the Northside, and for these reasons we ask for your gracious support.

Sponsorship contributions will allow the various Northside residents, neighborhood groups, and small businesses to feature their activities in the guide by assisting in off-setting the additional printing costs..

**This year we have established new sponsorship levels so that any organization can afford to participate. Please refer to the sponsorship page for more information regarding the packages.**

If you have supported this endeavor in the past we ask that you consider investing in your community again. Printing **8,000 copies**, the Northside Chronicle is committed to the eighteen neighborhoods that it serves and we ask that you join us in this endeavor.

Thank you for your consideration,
